EDUCATION

Institute of Business Administration (IBA) Karachi *Aug 2023 – Jun 2027*

BS Computer Science | CGPA: 3.45 | Dean's List – 3 consecutive semesters

Nixor College *Aug 2021 – Jun 2023*

A Levels | 3As, 1B | Pursuit of Excellence Award, Dean's List, 18% Academic Scholarship

PROJECTS

Shipment Management B2B SaaS | Live in UAE & KSA

Next.js, Supabase, PostgreSQL

- Identified core operational pain point for ~50 clients of manually managing iMile shipments and invoices; designed and shipped a SaaS to automate the full shipment workflow from booking to settlement.
- Designed per-client pricing, admin approval flows, and a financial dashboard; platform handles peak volumes of 2,000 and 3,000 shipments in UAE & KSA.

Sabse Sasta – E-commerce Platform | Sprint Master / Product Owner

React Native + Expo, Next.js, Node.js, Prisma, Supabase, TypeScript | 3-App Monorepo

- Kept a 3-app product (web, mobile, backend) on track across sprints by maintaining the JIRA backlog, running sprint ceremonies, and resolving cross-team blockers; team shipped all planned features within timeline.
- Broke down requirements (customers + vendor approval pipeline) into actionable tickets; personally led Expo mobile development.

WePay – Expense Sharing Application | GitHub

PostgreSQL, Node.js, Express, React Native

- Identified 3 critical gaps in Splitwise, Splid, and TriCount through competitive analysis; shaped the product design around removing paywalls, missing real payments, and balance inaccuracies

WORK EXPERIENCE

Providus Technologies – Associate Product Engineer *Jun 2026 – Oct 2026*

- Led client discovery for an animation studio and reshaped their AI tool around its bottleneck of script research and outlining.
- Uncovered through expert interviews that manual reconciliation can cost businesses $100-115 per discrepancy per document, reinforcing the need to design and build ReconAI.
- Defined ReconAI's ideal customer profile and reached 260 finance and procurement leaders at US mid-market firms through LinkedIn and email.
- Designed the agentic procure-to-pay (P2P) cycle covering vendor selection, purchase order creation, and document reconciliation.

10Pearls – Data Science Intern *Apr 2026 – Jun 2026*

- Developed the Karachi AQI forecasting dashboard, automating data updates and reducing load times from over 100 seconds to under a second.

Teach For Pakistan – Campus Leader *Oct 2025 – Apr 2026*

- Grew IBA campus TFP pipeline to 150+ engaged students through a structured 3-phase campaign (Awareness → Event → Activation); a GTM-style rollout applied to student recruitment.
- Organized Carnival Fest drawing 100+ attendees, creating direct touchpoints between students and underprivileged communities; strengthened TFP's on-campus brand visibility.

EXTRACURRICULAR ACTIVITIES

- **AIESEC in IBA | Oct 2023 - Aug 2025:** Recruited new members by conducting panel interviews and group discussions, evaluating candidates on cultural fit and values alignment.
- **26th HEC Men's Shooting Championship – Air Rifleman | Nov 2024 – Jan 2025:** Competed nationally, representing IBA Karachi in a high-pressure individual discipline.
- **Out-of-thin-Air Game Jam – Team Captain | Sep 2023:** Led 3-member team to design and ship original game 'Pinpoint'.

SKILLS

Tools: JIRA, Power BI, Power Automate, Git, GitHub Actions, Supabase, Claude Code, GitHub Copilot, Hermes Agent

Technical: SQL, TypeScript, Python, React Native

Concepts: Agile/Scrum, Sprint Planning, Product Roadmapping, Market Analysis, GTM Strategy, Stakeholder Management
